A-LITE WHITE
CORE

aluminium composite panel

The flat, smooth, digital surface with exceptional ink adhesion helps to display printed colours with increased brightness and intensity. The white core is ideal for applications where edges are exposed.

**Particularly
suited for display
applications**

Clean,
easy-peel film

White core, great for
exposed edges

Lightweight
yet rigid

Uniform,
flat surface

Digital coating,
excellent for printing

2 year
guarantee

MADE IN BRITAIN

A-Lite White-Core aluminium composite sheet is a high quality digital print panel with a specially developed paint system, a unique easy-peel film and the added benefit of a white polyethylene core - particularly suited for display applications where the edge of the panel will be visible.

Both sides of the panel have an ultra-white matt finish that has been developed specifically for digital and screen printing to help display colours with increased brightness and intensity. The high quality film provides excellent protection and is designed to remove smoothly and easily, leaving no residue on the panel.

Applications:

- Printing direct
- Sign making
- Wayfinding
- POS displays
- Shop-fitting
- Exhibition design

 **MADE IN BRITAIN**
